Local Leaders

Local Leaderettes
Send Social News to Local-Leaderette, Jamaica Avenue, opposite Forest Parkway. Write plainly on one side of the paper, and please put address on the back. Do not be too specific about what happened, when it happened, and where.

A Good Day's Work

At any rate, you don't HAVE to attend church to be a good person. You don't have to attend church to remain a good citizen. You don't have to attend church to do the work it was given you to do. You don't have to attend church to give the people of our country a lesson in how to do things right, and how to do them better, and how to work for the improvement of our country. You don't have to attend church to eat it—but it sure helps!

The information received last week that the Consolidated Edison Company is seeking a rate increase is another indication of the serious problems that beset our nation in this post-war period. A year ago, there was no talk of a rate increase; now we face the possibility of one. The rate increase will mean a hardship to many families, but it will also mean a hardship to the Consolidated Edison Company. The company must have the necessary funds to operate and maintain its facilities, as well as to invest in new ones.

It is for Real?

That was the name of the first book written by a woman in the United States. It was published in 1873. The book is considered one of the most important works of literature ever written. It deals with the problems of women in society, and it is still read today.

The Bible--Word of Life

The 14th annual National Bible Week will be observed during the week of October 10-16. Once again, it is sponsored by an all-student group, the Laymen's National Committee, Inc., under the general direction of The Leader-Observer. It is taken from the 2nd Chapter, 1st verse of the New Testament.

Bible Week is the largest single organization project of the Laymen's National Committee. It is a cooperative effort between the church and the community, and it is supported by local churches, schools, and civic organizations.

Observations

The MYSTERIES OF THE ATOM

Silent, but not invisible, are the workings of the subatomic particles. The atom is the building block of all matter. It is composed of protons, neutrons, and electrons. Protons and neutrons are found in the nucleus, while electrons orbit the nucleus. The atom is held together by the strong nuclear force. The subatomic particles are constantly in motion. They are affected by the forces of electromagnetism, strong nuclear force, and weak nuclear force. The atom is the smallest unit of matter that can exist. It is the fundamental unit of all elements. The atom is the basic unit of all living things.

JOYCE R. MOORE

She was the first woman to be awarded the Medal of Honor, the highest military decoration a person can receive. She was a nurse in the American Civil War, and she lived from 1834 to 1930.

Carol A. Ehlers Will

 Worship and Education of Franklin K. Lane High School, 9111 92nd Avenue, was to become the new home of the Woodhaven Patriotic League. The new building is to be dedicated on November 15th. The dedication ceremony will be held at 2:00 p.m. The Woodhaven Patriotic League is a non-profit organization that serves the community.
