Supervisor's Corner

Ice storm post-script: A return to normalcy

Perinton's ice storm cleanup was completed in early-May, well before the federal deadline. At that point we had made three full passes through the town. The three private firms who assisted us were sent home with our appreciation for their cooperation and hard work on the town's behalf.

Obviously, while our streets are no longer lined with tree limbs, storm-related debris is still scattered about. This is due to weekly curb-side yard debris pickup and we have been doing that throughout the storm cleanup effort. This will continue with small piles being taken by our regular trash crews for pickup at the end of the week by heavy duty equipment. Essentially we are once again covering the entire town every week. To facilitate our pickup efforts, we ask you to please cut limbs to 4-foot lengths and not to bend, leave, etc. in containers.

We have chipped all the tree debris that we picked up. Chips will continue to be available at the Fairport Park, Egypt Park and at the Park & Ride lot on Route 56 through June 14. However, since delivery of the chips to these sites takes a lot of men and equipment, and we are already behind on our normal work schedule, as the 14 we will focus our efforts once again on highway work. We hope to make chips available again this fall.

We continue to prepare the paperwork for federal reimbursement for our cleanup efforts. We have spent close to a million dollars in our cleanup efforts. The federal government will pay 75 percent of eligible costs up to their ceilings (which are often lower than our expenses). The state will pay 12-1/2 percent and the town will absorb the balance of 1-1/2 percent. The storm costs coupled with cut-backs in state aid to local government are certainly making this a most interesting year financially.

I'd like to thank all of you, the town residents, for your continuing cooperation in our cleanup efforts. I'm very proud of all of our staff and employees for their fine efforts in cleaning up the ice storm. Perinton has been involved in many county-wide post-storm performance assessments. It is my clear impression that our community's response was among the best in the area, from start to finish. That is something in which the Perinton community should take great pride.

Spiritually Speaking

By David Gellert, Pastor
Perinton Presbyterian Church

We love the earth and its fragile life, conserve fuel, etc. We serve and honor God as we carefully evaluate our actions, attitudes, actions and habits, and make necessary changes. Faith and science are consistent with a healthy earth.

Let us care for the environment, not just because we are afraid of what will happen if we abuse it, but because caring is a holy call — God's will for each of us and for the world.

Virginia Staly

Friends contribute to the Fairport Presbyterian Church

Mrs. Staly is survived by two sons, Jay R. and Jack M. MacFadden; four grandchildren and three great-grandchildren.

Arrangements were by the Richard H. Keenan Funeral Home, 41 S. Main St., Fairport.
