NOW SHOWING AT FOX THEATRE

Claudette Colbert and Ray Milland in "ARISE MY LOVE"

CLAUDETTE COLBERT AND RAY MILLAND STAR IN "ARISE MY LOVE" WHICH STARTS A 3 DAY SHOWING TODAY AT FOX THEATRE

With the magnificent grace of a dancer, Miss Colbert, has already scored a number of triumphs, this year, in the United States, with "Pollyanna," "The Sign of the Cross," "The White Cliffs of Dover," "Ode to Joy," "A Woman of Affairs," etc. In ALLIANCE, and "The Barretts of Wimpole Street," Miss Colbert has been prominent in some of the most notable productions of the past two years. In "ARISE MY LOVE," she plays the part of a woman. She has had the opportunity to work with such noted directors and dramatic stars as Mervyn LeRoy, Henry King, George Cukor, and Howard Hawks. This film is a personal appearance from Claudette Colbert to all those who love her and admire her talents. It is a charmingly entertaining story filled with romance and the piquancy of Paris; with the poignancy of love to the song of a love broken. Claudette Colbert and Ray Milland are both outstanding in "ARISE MY LOVE" in every way. Miss Colbert is shown at her very best. Miss Colbert and her co-stars are not to be missed. The story centers on a woman named Armande de Galland, who has been in love with her husband ever since they were children. When he returns from the war, she is surprised to find that he has fallen in love with another woman. She tries to make him love her, but he is too much in love with the new woman to care for her. In the end, she is left a widow, and she decides to go to America to start a new life. The movie is a love story, with plenty of drama and suspense. The acting is excellent, and the direction is top-notch. Overall, it is a very entertaining movie that will keep you on the edge of your seat. Recommended for all fans of classic cinema.

PRINCETON, N. J.—Four American aviation plants working to achieve the greatest airplane production in history, under the National War Plan Commission, are said by governmental defense officials to have been assured of the necessary planes to meet the requirements of the British government, through the medium of a survey which the Commission made last week of American policies in the aviation field.

Regardless of how the question is phrased, the American survey board will make a survey of American and British military needs in the aviation field. The survey by the Commission is designed to determine the exact needs of the British military establishment in the aviation field and to determine what steps must be taken to meet these needs. The survey is expected to be completed within the next several weeks, and the results will be made public.

The Commission is working in close collaboration with the British government and is expected to make its report to the British government as soon as possible. The survey is expected to be of great value to the British government in determining the exact needs of its military establishment in the aviation field and in planning its future aviation policies.

The survey is expected to be of great value to the American government in determining the exact needs of its military establishment in the aviation field and in planning its future aviation policies.
