Middle-of-Road Parties Defeat DeGaulists and Communists

Paris (UPI) — The dominant conservative coalition and the Communist Party lost ground yesterday in French legislative elections, but the center-of-the road Popular Republican Movement added to its parliamentary strength.

The government bloc parties will hold 199 of the 1507 council seats the government parties had romp. A return to the previous Sunday, the elections added to the sentiment in France for a return to the center of the political spectrum.

The government victory added to the sentiment in France for a return of the conservative parties. It also added to the sentiment for a return to the center of the political spectrum.

The Popular Republican Alliance, which was formed in reaction to the Popular Republican Movement, is a coalition of conservative parties. It has been gaining strength in recent months.

Lewis' Miners Return to Pits

Pittsburgh (UP) — John L. Lewis' United Mine Workers returned to the pits today after a two-hour walkout. The strike began at 2 a.m. when the company refused to accept a contract offer.

The union had been trying to negotiate a new contract since last fall. The strike lasted for two days and included several early morning meetings. The company had offered to pay a $500 bonus to the miners.

President Arthur U. Davis, head of the union, said the workers had been demanding a raise in their wages.
