BLACK LT.-GOV. WAR RAGES IN N.Y.

Hampton Death Being Probed

CHICAGO — The struggle to end a controversy over the death of the late New York Lt. Gov. Thomas J. Hampton was being described as "a war" between the American People's Congress and the government.

The controversy began last week when the government announced it would not seek Hampton's indictment for the murder of a Chicago youth, Robert P. Taylor, who had been killed during the Hampton's assassination attempt.

The government said it would not seek the indictment because the case was "too sensitive" and too complex to handle.

The American People's Congress, which is the opposition party to the government, called the government's decision "an attempt to cover up the truth." The Congress said it would continue to fight for the Hampton family's rights.

Hampton, a black man, was killed in a violent confrontation in Chicago on July 7, 1969, while attempting to assassinate President Lyndon B. Johnson.

The Hampton family has accused the government of covering up the circumstances surrounding the death and of destroying evidence.

The government has denied the charges and said it would continue to investigate the case.

The Hampton family has also filed a lawsuit against the government, seeking damages for the death.

The Hampton case has been closely watched by civil rights activists and has become a symbol of the struggle for justice and equality.

U.S. Deal Protecting Williams?

WASHINGTON — A deal by the government to protect a black man named Williams from murder charges has sparked controversy in the nation's capital.

Williams, a darauf, accused of murder in a separate case, is described as a "political figure" by some and as a "white supremacists' dream" by others.

The government said it would provide Williams with protection if he agreed to testify against other suspected white supremacists.

The deal has been criticized by civil rights activists who say it is a violation of Williams' rights and a threat to justice.

The government said it was necessary to protect Williams because of his role in helping to organize the white supremacist group.

Williams has been charged with murder and is currently awaiting trial.

The Hampton case and the Williams deal are just two of the many controversies that have bedeviled the government in recent years.

The government has been criticized for its handling of the cases and for its efforts to cover up the truth.
